

Assignment-2 Session 22

Question 1

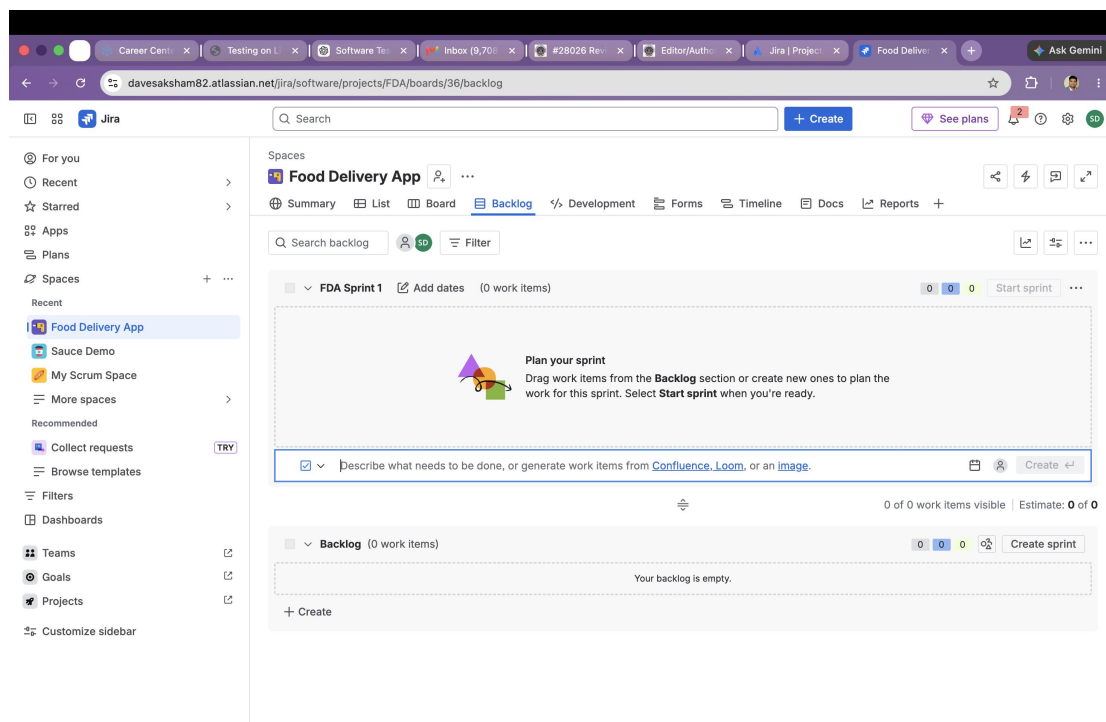

Sign up for a free Jira Cloud account, create a new project using the Scrum template, and take a screenshot of your empty Scrum Board.

Answer

Steps Performed

1. Created a free Jira Cloud account.
2. Logged into Jira.
3. Selected **Projects** → **Create Project**.
4. Chose the **Scrum** project template.
5. Entered Project Name: **Food Delivery App**.
6. Created the project successfully.
7. Opened the Scrum Board.

Screenshot

Question 2

Create an Epic named Food Delivery App Features and add three User Stories.

Answer

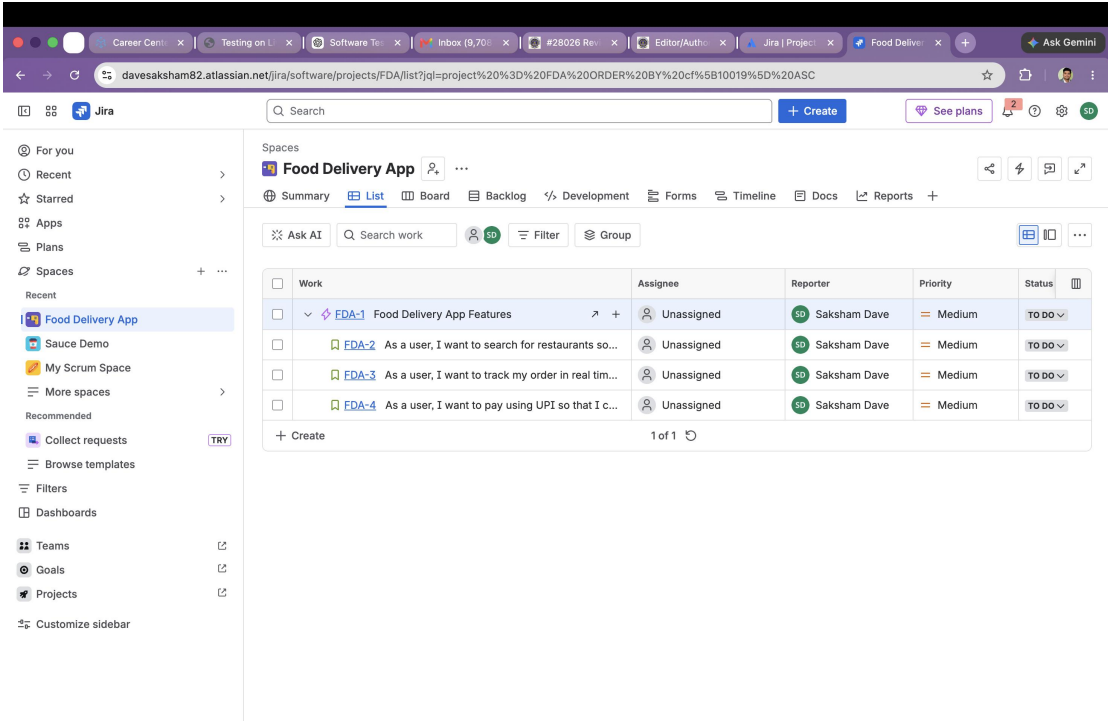

Epic

Epic Name: Food Delivery App Features

User Stories

Story ID	User Story
STORY-1	As a user, I want to search for restaurants so that I can easily find food nearby.
STORY-2	As a user, I want to track my order in real time so that I know the delivery status.
STORY-3	As a user, I want to pay using UPI so that I can complete payments quickly and securely.

Screenshot

Question 3

For the User Story "As a user, I want to search for restaurants", add two sub-tasks.

Answer

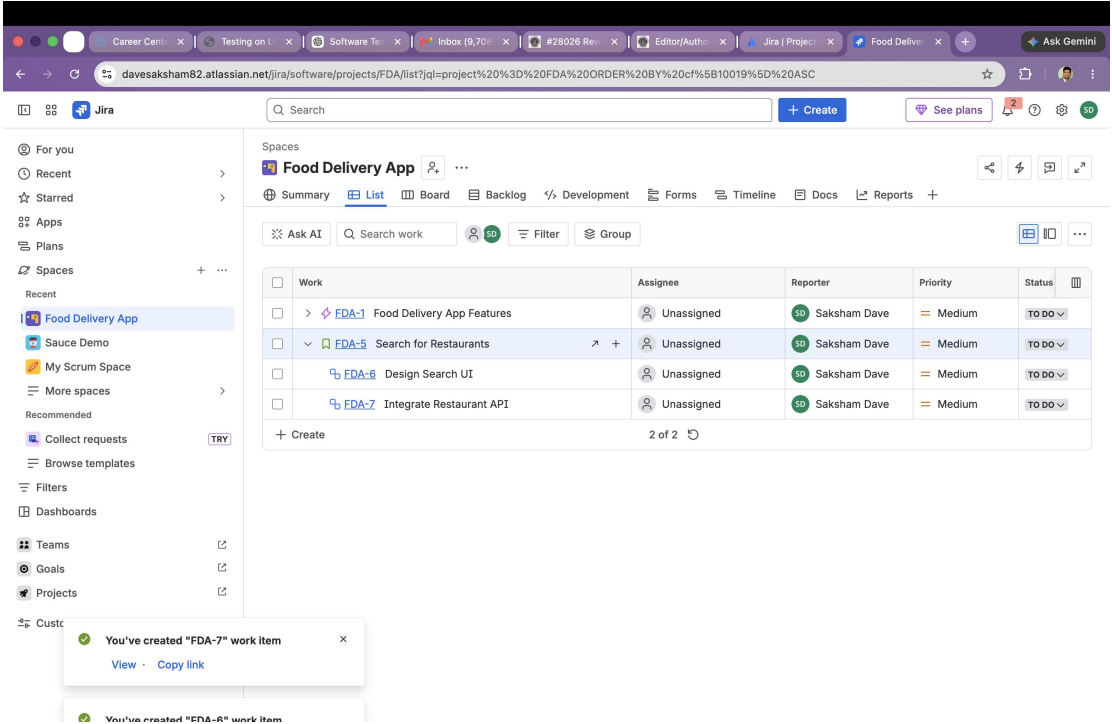

Parent Story

Search for Restaurants

Sub-Tasks

Sub-Task ID	Sub-Task
SUB-1	Design Search UI
SUB-2	Integrate Restaurant API

Screenshot

Question 4

Change the status of one sub-task from To Do → In Progress → Done.

Answer

Workflow Performed

Task	Initial Status	Updated Status
Design Search UI	To Do	In Progress
Design Search UI	In Progress	Done

Question 5

Explore the different Issue Types available in Jira (Epic, Story, Task, Bug). Create one sample issue for each and explain when you would use it.

Answer

Issue Type	Sample Issue	When It Is Used
Epic	Food Delivery App Features	Used for a large feature that contains multiple related user stories, such as the complete food ordering functionality.
Story	Search Restaurants	Used to represent a user requirement or functionality from the customer's perspective.
Task	Create Restaurant Search UI	Used for a specific development or testing activity that supports a story.
Bug	Search results not displayed after entering a valid restaurant name	Used to report defects or unexpected behavior discovered during testing.
