

Assignment-2 Session4

Question 1: Pick any one app you use daily (like Zomato, Instagram, or Paytm) and list 6 specific testing activities you would perform before its latest feature release. For each activity, write 1 line describing what it checks.

Answer

Application Chosen: Zomato

Sr. No.	Testing Activity	Description
1	Requirement Review	Verify that the new feature requirements are complete, clear, and testable.
2	Test Case Design	Create test cases covering positive, negative, and boundary scenarios.
3	Functional Testing	Verify that the new feature works according to the business requirements.
4	Integration Testing	Ensure the new feature works correctly with other modules such as payment, cart, and order history.
5	Regression Testing	Verify that existing features continue to work after adding the new feature.
6	User Interface (UI) Testing	Check that buttons, icons, layouts, fonts, and screens are displayed correctly without alignment issues.

Question 2: Create a Responsibility Matrix (RACI Chart) for a test team working on a new Flipkart-style shopping cart feature.

Answer

RACI Chart

Activity	Tester	Test Leader	Developer	Product Owner
Test Planning	C	A/R	C	I
Test Case Design	R	A	C	I
Test Execution	R	A	I	I
Bug Reporting	R	A	C	I

Legend

R – Responsible: Performs the work.

A – Accountable: Owns the final outcome and approves the activity.

C – Consulted: Provides input and technical guidance.

I – Informed: Kept updated about progress and results.

Question 3: Write a brief job description (3–4 lines) for the role of a Test Leader in a team testing a new BookMyShow movie booking feature.

Answer

The Test Leader is responsible for planning, organizing, and managing all testing activities for the movie booking feature. The Test Leader prepares the testing strategy, assigns tasks to testers, reviews test cases and defect reports, monitors testing progress, and ensures all critical defects are resolved before release. The Test Leader also coordinates with developers and the Product Owner to make release decisions based on software quality.

Question 4: Define a list of at least 5 testing activities needed for a small project to add a "Dark Mode" toggle in a music app like Spotify. For each activity, specify whether it should be done by the Tester or Test Leader.

Answer

Sr. No.	Testing Activity	Responsibility
1	Prepare the Test Plan for the Dark Mode feature	Test Leader
2	Design test cases for enabling and disabling Dark Mode	Tester
3	Execute test cases on different devices and browsers	Tester
4	Report and track defects related to Dark Mode	Tester
5	Review test execution status and approve release readiness	Test Leader
6	Perform regression testing to ensure existing features are not affected	Tester
7	Prepare the final Test Summary Report and release recommendation	Test Leader
