Profile

Entry-level QA Engineer with strong knowledge of SDLC/STLC, Manual Testing, Test Case Design, and Defect Reporting. Skilled in using tools such as JIRA, ClickUp, Notion. Familiar with SQL for database validation and basic Java/Python for understanding automation concepts. Quick learner with solid analytical skills and a strong focus on accuracy, documentation, and delivering high-quality software. Actively seeking an opportunity to start my career in Software Testing & Quality Assurance.

Education

04/2026 – Present Ahmedabad	Diploma in Software Testing and Automation <i>TOPS Technologies</i> Currently Pursuing this course for aspiring deep knowledge about Software Testing and Automation.
2022 – 2026 Vadodara	Integrated Master of Computer Application <i>Vadodara Parul University-PICA</i> Specialisation - Cyber Security and Forensics. Current CGPA: 8.07/10
2022 – 2022 Sirohi	Higher Secondary Certification-Class 12th <i>Sirohi Emmanuel Mission Senior Secondary School</i> Percentage: 73%
2020 – 2020 Sirohi	Secondary School Certificate-Class 10th <i>Sirohi Emmanuel Mission Senior Secondary School</i>

Skills

Manual Testing

Test case design, test execution, defect reporting, regression testing.

SDLC / STLC Understanding

Knowledge of software development & testing life cycles.

JIRA

Bug reporting, tracking, and workflow understanding.

ClickUp/Notion

Documentation, task tracking, test management.

SQL(Basic Queries)

Select, Where, Join basics for data validation.

HTML/CSS

Understanding of UI structure for validation.

Basic Java

Concepts & logic for beginning automation.

Basic Python

Syntax understanding, small scripts.

Test Case Design Techniques

Boundary value, equivalence partitioning, positive/negative testing.

Attention to Detail

Identifying UI/API defects accurately.

Analytical Thinking

Understanding bugs, root causes.

Communication Skills

Clear bug descriptions & reporting.

Team Collaboration

Agile/Scrum working environment basics.

Cyber Security Skills

Cyber Security Fundamentals

- Strong understanding of threats, vulnerabilities, and security layers

VirtualBox / Virtual Machine Setup

- Creating & managing lab environments

Linux (Ubuntu) OS

- Comfortable with terminal commands and system operations

Digital Forensics Awareness

- Understanding of evidence collection, log analysis, file investigation, and forensic concepts (theoretical).

Network Security Concepts

- Basics of firewalls, ports, protocols, network layers, and identifying common security risks.

Relevant Certificates

- | | |
|---------------------------------|--------------------------------|
| • Software Testing Fundamentals | • JIRA Basics (Simplilearn) |
| • SQL for Beginners | • QA/Manual Testing Essentials |

Additional Technical Certificates

Web Designing & Hosting

College Certificate

Programming Basics in C, Java & Python

IT Bombay (Spoken Tutorial)

HTML & CSS Beginner Certificates

Great Learning / Simplilearn

Projects

Manual Testing - E Commerce Website

Tools: JIRA, Excel

- Analyzed a sample e-commerce website for functionality and UI issues.
- Designed test scenarios, test cases and test data.
- Executed Functional, UI, Smoke and Regression testing.
- Logged defects in JIRA with clear reproduction steps and screenshots.
- Prepared a final Test Summary Report.

Movie Streaming App

Tech: Java, Android Studio

- Created UI screens, category pages and basic navigation workflows.
- Contributed to feature implementation and app structure designing.

E-Learning Portal

Tech: Python, Django, SQL

- Developed modules for student login, course pages and content access.
- Worked on database handling, CRUD operations and backend logic.

Music Player

Tech: Python

- Designed a simple music player with play, pause and track-change features.

Chatting App

Tech: Java, Firebase / Android

- Built a basic chat interface with real-time messaging functionality.
- Integrated Firebase for user data and message storage.

Amazon Frontend Clone

Tech: HTML, CSS

- Created a frontend clone of Amazon homepage.
- Focused on layout design, styling and responsive structure.
